Advance with Atos Origin

Atos Origin's mission is to advance the performance of our clients by offering innovative solutions that deliver measurable business value. Through consulting, systems integrations and managed operations, and our deep industry knowledge, we are able to provide individually tailored end-to-end IT solutions.

Our clients are large multi-national groups and organizations, as well as small and medium sized enterprises, who work with us in long term business partnerships. We are the IT partner of the International Olympic Committee and in charge of the IT for the Olympic Games, but also active in other critical environments such as air traffic control, payment solutions, or the control systems of nuclear power plants.

Our client dedication, our strong values, and our people are the basis of Atos Origin's unique success story. We are European focused but have 50,000 employees in more than 40 countries in the world ensuring a seamless global delivery and operational excellence for our international clients. We deliver what we promise and our clients want - measurable business value.

ATOS CONSULTING

Atos Consulting offers advice and a pragmatic, realistic approach to addressing client needs. It provides end-to-end services and solutions, ranging from supporting strategy development through to enterprise solutions and technology decisions. This enables our clients to become increasingly effective and to generate more value through an innovative approach to business processes, well-integrated supporting technologies and strategic investments in people.

Our consultants have an in-depth understanding of their clients and their businesses and a proven track record of delivering solutions in many industry sectors. By focusing on these specific industries, Atos Consulting ensures that all aspects of a client organization - people,

Key Facts

- > Over 50,000 professionals in 40 countries
- > Annual revenues of over € 5.8 billion
- > Strong European base with global presence
- > Expertise in key industry sectors
- > True end-to-end solutions: Design, Build, Operate
- > Long-term and flexible customer relationships
- > Best-of-breed alliance partners

processes, and technology - are fully aligned with business strategy.

SYSTEMS INTEGRATION

At Atos Origin, Systems Integration is not just about integrating new solutions, but includes getting the most out of legacy applications to prolong returns from existing IT investment. Successfully combining new solutions with established ones can transform the complete enterprise architecture into a single, seamless

ADVANCE YOUR BUSINESS >>

business system. Our extensive experience in integrating people, processes and technologies enables us to design, build and operate practical and robust solutions.

Our specialists work with our clients to develop, implement, and maintain systems that will support and enhance their overall business strategy. We work with a carefully selected group of strategic partners and vendors, such as SAP, Oracle and Siebel, to develop and implement end-to-end offerings and standardized packaged solutions in complex environments using best of breed technologies. We also perform projects using customized software, open source, and legacy applications, including various languages and design methods.

MANAGED OPERATIONS

Our highly successful outsourcing operations manage core IT infrastructures for clients, including datacenters, desktop support, server farms and network communication systems. We provide 7x24 'follow the sun' infrastructure and application support through our global network and the company has unrivalled experience in major enterprise programs covering complex and multi-site solutions. Our Continuous Service Delivery Methodology (CSDM) guides our clients through the process of assessment, planning, implementation, transition, and ensures consistent, high quality service delivery worldwide.

We also provide Business Process Outsourcing (BPO) and specialist processing services on a global basis and are a key European player in payment and card processing services, CRM and multi-channel contact services through Atos Worldline.

A STRONG INDUSTRY SECTOR FOCUS

Atos Origin is a strong partner in helping enterprises gain an important competitive

advantage through a deep industry knowledge and the use of industry best practices. Our keen industry focus and our experience in transforming enterprises give us an in-depth view as to how business has developed and is continuing to evolve. Our services and solutions add value across many industry sectors including Financial Services, Manufacturing, the Public Sector, Retail, Telecom and Utilities.

Our global client teams and service delivery organization focus on the success of our clients. Experienced solution directors ensure that the best and most suitable processes, methods and tools are deployed. And with proven solutions, flexible contracting options, and measurement against service quality, an increasing number of leading international clients have chosen Atos Origin as their worldwide information technology partner.

REALIZING BUSINESS POTENTIAL TOGETHER

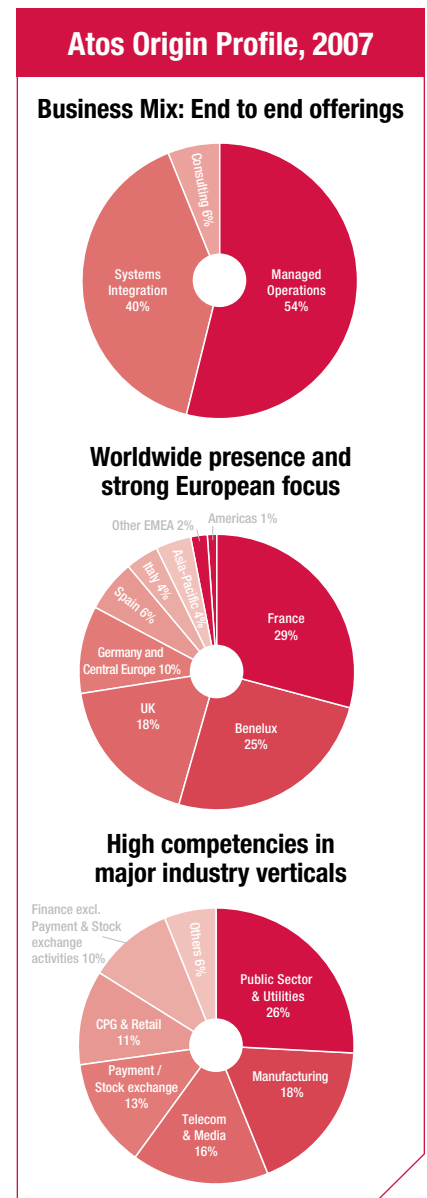

We understand that it is vital for IT services and solutions to add value across an enterprise and to be a positive enabler for the future. Our business approach is based on establishing long-term relationships with our clients and becoming fully involved in their strategic planning and implementation processes. This can be through outsourcing, joint ventures, or other forms of long-term associations. We believe that this is the most productive way of developing business today, with both parties sharing the risks and rewards of the association, and helping to develop and shape the future together.
